

Punj Lloyd to build Expanded Capacity Fuel System of NDIA Order valued at Rs 258 crore

New Delhi, March 21, 2007

Punj Lloyd Limited (PLL), a global EPC services provider in energy and infrastructure domains, has received approval of extension of their existing contract with New Doha International Airport (NDIA). The extension will enhance the capacity of the fuel system to take care of phase II expansion of the new airport. The extension order is valued at Rs 258 crore. With this approval, the contract value for the extended scope becomes Rs 618 Crores.

The new contract with extension involves the engineering, procurement and construction of fuel farm, fuel receiving station, jet fuel hydrant system, ground service equipment fuel system, ground service equipment washing system, portable water station and operation office, parking facility for hydrant dispenser vehicles, triturator facility, special fuel system equipment, special systems in building / facilities (BMS/CCTV) etc. The project would be completed by December 2008.

Punj Lloyd is at an advanced stage of completing engineering phase for the fuel system and Client's approval of extension of the contract reinforces the confidence of project management consultant, Overseas Bechtel Inc. in Punj Lloyd.

About Punj Lloyd Limited

Punj Lloyd (BSE SCRIP ID: PUNJLLOYD, NSE SYMBOL: PUNJLLOYD), is the second largest engineering and construction companies in India providing integrated design, engineering, procurement, construction and project management services for energy and infrastructure sector projects with operations spread across many regions in the Middle East, Caspian, Asia Pacific, Africa and South Asia.
